FISCAL NOTE ANALYSIS

STATE OF ALASKA 2022 LEGISLATIVE SESSION

Analysis

Risk Management (RM) would be financially impacted by this proposed legislation. Risk Management is funded by inter-agency receipts, based on a shared cost allocation plan. Any increases to Risk Management's operating costs would be passed on via cost allocation to our customer agencies who participate in the state's self-insurance program. Currently under the Alaska Worker's Compensation Act, AS 23.30.190 (a), the whole body rating is \$177,000. this bill would increase this rating by 54.24% to \$273,000. RM's ten year average (FY2012-2021) of whole body Permanent Partial Impairment (PPI) rating payouts to injured employees is \$854,653 per year. The 54.24% would increase the average annual payout by \$423,254. Based on the \$423,254, we anticipate additional payout in second injury fund fees of \$25,395. This bill would amend AS 23.30.215(a)(1) to increase funeral expense from \$10,000 to \$12,000, as well as increase the Not To Exceed amount from \$20,000 to \$150,000 for dependants that are not direct family members such as a spouse or children but were dependent on the the injured worker at the time of injury. Finally this will also change (a)(5) to increase the one time payment benefit to a widow or widower, or surviving children from \$5,000 to \$8,000. The potential cost increase for this bill as noted would impact the costs for workers compensation as charged out to our customer agencies via the annual cost allocation method.
